

Establish a new directory, populate it with script files

A screenshot of the Visual Studio Code interface. At the top, there are buttons for 'Connect to...' and 'Generate New Workspace...'. Below these is a 'Recent' section. The 'TERMINAL' tab is active, showing a command prompt session. The prompt is 'infob@Yugan MINGW64 ~/Desktop/GIT (master)'. The user has entered '\$ ls' and the output is 'file1.sh file2.sh'.

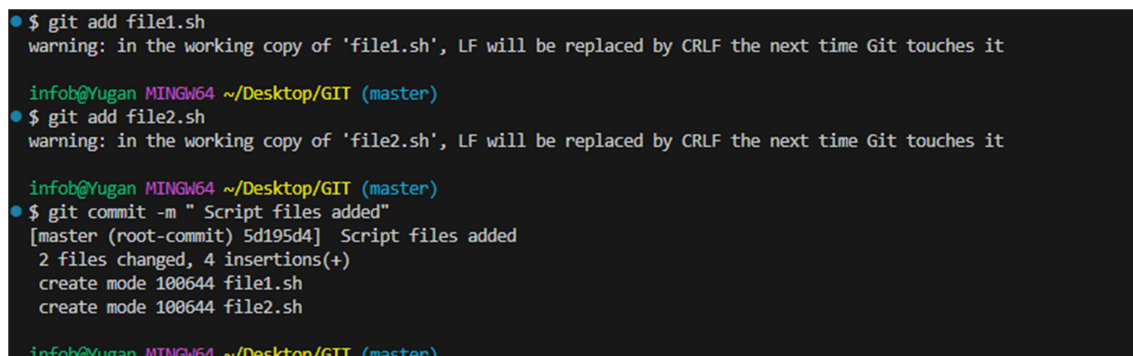

```
infob@Yugan MINGW64 ~/Desktop/GIT (master)
$ ls
file1.sh file2.sh
```

A screenshot of the Visual Studio Code interface. The 'TERMINAL' tab is active, showing a command prompt session. The prompt is 'infob@Yugan MINGW64 ~/Desktop/GIT (master)'. The user has entered '\$ ls' and the output is 'file1.sh file2.sh'. The user has then entered '\$ git init' and the output is 'Reinitialized existing Git repository in C:/Users/infob/Desktop/GIT/.git/'.

```
infob@Yugan MINGW64 ~/Desktop/GIT (master)
$ ls
file1.sh file2.sh

infob@Yugan MINGW64 ~/Desktop/GIT (master)
$ git init
Reinitialized existing Git repository in C:/Users/infob/Desktop/GIT/.git/
```

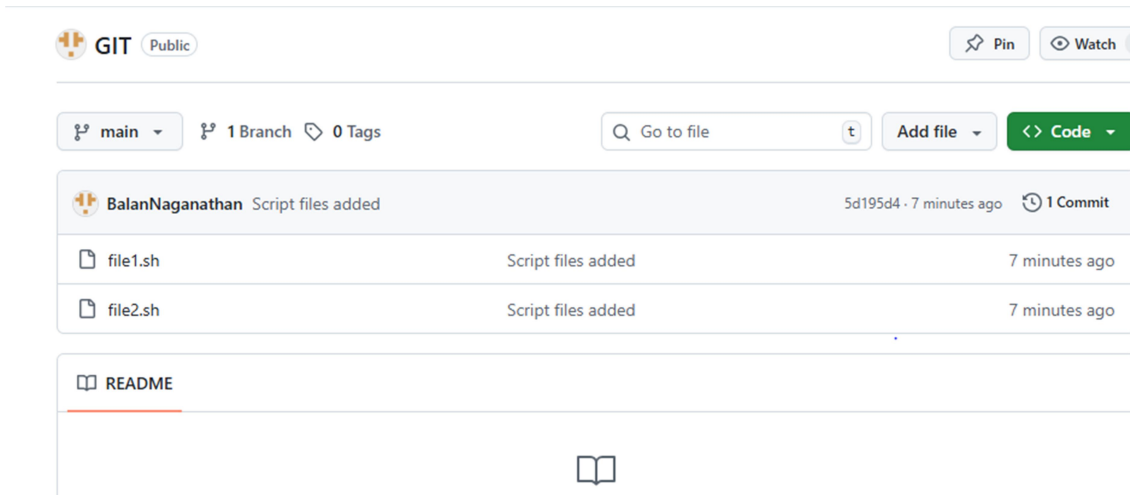

A screenshot of the Visual Studio Code interface. The 'TERMINAL' tab is active, showing a command prompt session. The prompt is 'infob@Yugan MINGW64 ~/Desktop/GIT (master)'. The user has entered '\$ git add file1.sh' and the output is 'warning: in the working copy of 'file1.sh', LF will be replaced by CRLF the next time Git touches it'. The user has then entered '\$ git add file2.sh' and the output is 'warning: in the working copy of 'file2.sh', LF will be replaced by CRLF the next time Git touches it'. The user has then entered '\$ git commit -m "Script files added"' and the output is '[master (root-commit) 5d195d4] Script files added', '2 files changed, 4 insertions(+)', 'create mode 100644 file1.sh', and 'create mode 100644 file2.sh'.

```
infob@Yugan MINGW64 ~/Desktop/GIT (master)
$ git add file1.sh
warning: in the working copy of 'file1.sh', LF will be replaced by CRLF the next time Git touches it

infob@Yugan MINGW64 ~/Desktop/GIT (master)
$ git add file2.sh
warning: in the working copy of 'file2.sh', LF will be replaced by CRLF the next time Git touches it

infob@Yugan MINGW64 ~/Desktop/GIT (master)
$ git commit -m "Script files added"
[master (root-commit) 5d195d4] Script files added
2 files changed, 4 insertions(+)
create mode 100644 file1.sh
create mode 100644 file2.sh
```

Local Repo replicated to GITHUB

Git Merge action:

```
infob@Yugan MINGW64 ~/Desktop/GIT (main)
$ git merge
Already up to date.

infob@Yugan MINGW64 ~/Desktop/GIT (main)
$ git merge newbranch
Updating 5d195d4..75e05e0
Fast-forward
 nwebranchfile.sh | 2 ++
 1 file changed, 2 insertions(+)
